Biomedical Search Engines

Professional Experiences

Since 1981 I'm in charge of S. S. Novara, taking up responsibility for the laboratories where we do control and prevention analysis of animal diseases (with focus on the ones transmissible to human beings i.e. zoonosi)

Since 1999 all the labs activities were mainly devoted to microbiology and food safety, implementing the regional and national plans related to official controls for all animal and vegetal origin food.

Since 1997 I'm on duty as Technical Auditor in IZSPLVA Group of Quality System.

Since 2003 I'm the Deputy Manager of S.C. Territorial Area Piedmont.

Training Courses, Conferences and Seminars

From 2000 up to date I've attended at 80 and over training courses, seminars and events (as a speaker/teacher as well)

Recent Publications

During the past years, I worked on several scientific articles, studies and works (nearly 18) published in Italian and international magazines.
