

Dr. Simone PELETTA

CURRICULUM VITAE ET STUDIORUM

1. PERSONAL INFORMATION

Name, Surname	SIMONE PELETTA
Address	VIA TREVISO, 55 10144 TORINO (TO)
Telephone	+390141-979297
Mobile	+39338-4276785
E-mail	simone.peletto@izsto.it
Nationality	Italian
Date of birth	18 APRIL 1975

2. PROFESSIONAL EXPERIENCE

- Dates (from - to)
 - Institute
 - Occupation or position held
 - Organization
 - Research activities
- From 01 August 2007 to date
Istituto Zooprofilattico Sperimentale del Piemonte, Liguria e Valle d'Aosta - Laboratory of Genetics and Immunobiochemistry
Via Bologna, 148 - 10154 Torino
Tel.: 011/2686367, fax: 011/2487770 e-mail: simone.peletto@izsto.it
- Governmental
Research Scientist in the Lab of Genetics and Immunobiochemistry in the "S.C. Neuroscienze con annesso CEA" Department
Permanent position, 38 working hours/week
Involvement in the management and organization of the research activities related to the genetics of prion diseases and the study of genetic resistance to other infectious and non-infectious diseases. Participation to international research networks and scientific collaborations. Set up of methods for molecular genetic studies. Gene expression studies by real-time qPCR. Molecular epidemiology researches by typing of viral and bacterial strains and phylogenetic analysis of sequence data. Bioinformatics and statistical analyses for genetic researches and writing of scientific articles. Internal and external training.
-

email: wilfred.goldmann@roslin.ed.ac.u
University di Edinburgh
Visiting scientist at the Dr. Wilfred Goldmann's Lab. Funding was provided by

- Research activities

at travel grant in the frame of personnel exchange programme of the Network of Excellence Neuroprion
 This training has allowed to study at a deeper level the Shadow of the Prion Protein gene (*SPRN*). In particular, a protocol of amplification of the *SPRN* gene for several animal species of interest in the field of prion diseases was set up. The protocol is currently being used in the Research Project “Progetto di Ricerca Corrente IZS PLV 05/08 Identificazione di biomarker per diagnosi di scrapie negli ovini e studio del ruolo dei geni *SPRN* e *RAGE* nella BSE bovina e nella scrapie dei caprini”.
- Dates (from – to)
 - Institute

From 01 November 2006 to 31July 2007
National Reference Centre for Animal TSEs (CEA) - Istituto Zooprofilattico Sperimentale del Piemonte, Liguria e Valle d'Aosta
 Via Bologna, 148 - 10154 Torino
 Tel.: 011/2686.1, fax: 011/2487770 e-mail: cea.genetica@izsto.it
 - Organization
- Occupation or position held
- Research activities

Govermental
 Grant as DVM at the Lab of Genetics of CEA (Area tecnica Neuroscienze e Genetica), research project: “Scrapie nella capra: studio della suscettibilità genetica tramite infezione sperimentale e valutazione dell’accuratezza dei test diagnostici rapidi” (PRC 014/2005).
 The aim of the study was to investigate the response of goats of selected PRNP genotypes to experimental infection with classical and atypical scrapie isolates. Involvement in other research projects on genetics of cancer in animal models and diagnostics by molecular methods. Other activities: identification of bacterial strains by analysis of the 16srRNA gene using MicroSeq 500/FullGene (Applied Biosystems) and data analysis by MicroSeq software and Blast; Theoretical and practical training (2 weeks) “Genetic Sequencing of Microorganism and Restriction Analysis” to vets of the National Center for Monitoring, Reference, Laboratory Diagnostics and Veterinary Methodology of Kazakhstan.
- Dates (from – to)
 - Institute

From 01 July 2004 to 31 October 2006
National Reference Centre for Animal TSEs (CEA) - Istituto Zooprofilattico Sperimentale del Piemonte, Liguria e Valle d'Aosta
 Via Bologna, 148 - 10154 Torino
 Tel.: 011/2686.1, fax: 011/2487770 e-mail: cea.genetica@izsto.it
 - Organization
- Occupation or position held
- Research activities

Govermental
 Grant as DVM at the Lab of Genetics of CEA (Area tecnica Neuroscienze e Genetica), research project: “Studio dei polimorfismi del gene PrP caprino e dei ruminanti selvatici e dei possibili fattori genetici condizionanti la suscettibilità alla BSE nei bovini” (PRC 008/2003).
 Genotyping in the frame of the national and regional selection plans for scrapie resistance in sheep. Genotyping of scrapie positive cases and validation of new kits for sheep genotyping. Research activities in the field of genetic variability of the PRNP gene in goats, wild ruminants and domestic cattle. He has gained skills in the molecular biology methods in use in the lab, particularly direct sequencing and fragment analysis. He has been trained also in the pyrosequencing technique and qPCR methods and finally knowledge of bioinformatics softwares, as Chromas, Mega, ClustalW, SeqMan (Lasergene), SeqScape (Applied Biosystems), has been acquired.
- Dates (from – to)
 - Institute

From 22 April 2006 to 22 May 2006 and from 09 July 2006 to 06 August 2006
Neuropathogenesis Unit (NPU) - Institute for Animal Health (IAH)
 West Mains Rd., Edinburgh EH9 3JF - Scotland UK

	<p>Goldmann in the frame of a collaboration involving NPU and CEA. During the months at the NPU labs in Edinburgh he has worked in close collaboration with Dr. Goldmann's group, pioneer of the studies regarding animal TSE genetics. In particular, he has focussed to the identification of genetic factors related to resistance/susceptibility to classical and atypical BSEs. This abroad professional experience has allowed to approach to base research in the field of TSE genetics. Moreover, he has gained skills in reverse transcription and SyberGreen-based qPCR. During the stay at NPU he has held a seminar on the obtained results entitled "PrP Expression Study in BSE and BASE Cattle Using Quantitative PCR Technology".</p>
<ul style="list-style-type: none"> • Research activities 	<p>From 26 June 2006 to 30 June 2006</p> <p>National Veterinary Laboratory (NVL) J. Kairiukscio 10 LT - 08409 Vilnius, Lithuania Tel.: +370 5 2780470 Fax.: +370 5 2780471 E-mail: nvl@nvl.lt National Laboratory for Veterinary Diagnostics in Lithuania Participation as expert in TSE genetics in the frame of a collaborative project between Piedmont Region and Lithuania funded by UE for the implementation of Veterinary Services: Twinning Project LT/2004/AG/07 "Strengthening of official control of animal health and food safety through implementation of Veterinary Management System". Theoretical and practical training of personnel of the GMO Department led by Dr. Vaclovas Jurgelevicius on TSE genetics and genotyping methods of sheep PRNP gene. During the stay he has held a seminar entitled "TSE Genetics".</p>
