Curriculum Vitae

Personal information

First name/ Surname

Maria Mazza

Address

Istituto Zooprofilattico Sperimentale del Piemonte, Liguria e Valle d'Aosta (IZSPLV), Via Bologna 148, 10154, Torino, Italy

Telephone

+39 011 2686282

Fax

+39 011 2686322

E-mail

maria.mazza@izsto.it

Nationality

Italian

Current qualifications

Biologist at the Genetics and Immunobiochemistry Laboratory of IZSPLV

Work experience

November 2003 to present date

- Biologist manager at the National Reference Laboratory for Transmissible Spongiform Encephalopathies (CEA) – IZSPLV.
- Participation to evaluation, application and standardization of diagnostic screening tests and confirmatory methods, as required by the Regulation (EC) 999/2001 for the prevention, control and eradication of transmissible spongiform encephalopathies.
- Trainer and technical supporter of the staff within the Italian laboratories on the rapid screening tests applied to the diagnosis of BSE and Scrapie.
- Participation in the activity of diagnostic confirmation and molecular characterization of BSE and Scrapie cases identified by the network of the IIZSS laboratories.

June 2000 – October 2003

- Fellow biologist – CEA
- Research activity in a study pilot conducted in the Piedmont region on the acquisition and development of the rapid test "Prionics-Check" in order to operate, in according to the EC guidelines, an active surveillance of BSE in Italy.

December 1993 – October 1997

- Researcher - Istituto per la Cerealicoltura (QCE), Rome, Italy
- Research activities on the selection and the genetic improvement of wheat.

January 1991 – August 1992

- Fellow biologist - different hospitals in Rome and Turin
- Training on the different techniques applied for the clinical analyses and prenatal diagnosis.

December 1997

- Specialization in Genetics Applied (70/70), University "La Sapienza" of Rome, Italy

November 1988

- Degree in "Biological Science" (110/110 *cum laude*) , University of Messina, Italy

Education and training

Personal skills and competences

Since 2000 she is working in the field of analytical techniques applied to diagnosis and molecular discrimination of BSE and Scrapie strains. Particularly in recent years she has gained experience in new highly sensitive amplification techniques for an *ante-mortem* diagnosis of the these prion disease.

She has expertise in proteomic approaches, mainly by bi-dimensional electrophoresis (2DE), in different field regarding the animal health and food safety (allergens, anabolic treatments in veals, food fraud).

During last years she published scientific articles on these fields.

High experience in the laboratory quality management system in according to the standard ISO 17025.

Mother tongue(s)

Italian

Other language(s)

English, fluent

Technical skills and competences	High experience in immunobiochemical techniques applied to the diagnosis and characterization of TSE strains. Experience in research project management.
Computer skills and competences	Operating system – Windows. Microsoft Applications – Word, Excel, Power Point, Internet Explorer.
Additional information	Speaker at national congress on topics related to the diagnosis activity and the research.
References	Author or co-author of 33 scientific articles published on peer-reviewed international journals; of 19 scientific articles published on national journals and more than 90 papers presented as posters in several national and international conferences.
